THE SCHOOL TATTLER

GRAYLING HIGH SCHOOL NOTES.

Marcella Sullivan—Editor. Emma Hum—Ass't Editor.

Grayling Defeats West Branch. The boys team gained another victory last Wednesday night when they defeated the fast West Branch squad 24-17: The first few minutes of the first basket. West Branch succeeded farst basket. West Branch succeeded tarted and at the end of the first quarter the Black Rocks led 10-2. Grayling jumped in at this point, and Chambellin was then replaced by their opponents were never able to gain the lead again.

The locals were slow in getting tarted and at the end of the first quarter the Black Rocks led 10-2. On the lead again the lead again.

The games that were to take place this Friday March 14, with Roscommon have been postponed indefinitely owing to a epidemic of mumps and measles in that vicinity.

The Robbies are seen as the place trailing 17-6 as the half ended.

The big surprise came in the third quarter with Grayling out-playing their opponents most of the time. The guarding of the entire local team showed up to good advantage.

HERE'S A FUNNY THING ABOUT PUBLISHERS

Did you ever notice how the nublisher of a paper will devote columns of his valuable medium to boosting of his valuable medium to boosting for this, that and the other thing, how he will expend thousands of words extolling the beauties of some association or club or league, with which he may have only the remotest connection, if at all; how his paper will shout itself black in the face for the sake of some political party and his only reward will be in trying to collect from the central committee for a few measly ads and readers?

few measly ads and readers?

Also, have you seen these same editors working on a committee of some sort, attending sessions of the legis-lature or congress or a utilities commission; pleading cloquently for the farmer or the marchant or the farmer or the manufacturer and setting flat feet standing around marble-paved lobbies. We'll say you have!

But, here's the big question. Have

you ever seen any appreciable number of these worthies sweating their lives away in a labor-on behalf of themelves or their own organizations?

None! Ye editor and ye publisher are the time-honored, traditional goats when it comes to lending their influence to the support of other people's campaigns, but as to their own press as-sociation or club, their slogan seems to be "Let George Do It."—Porte Bul-

Is Your Back Giving Out?

ARE you miserable with an aching back? Do you get up lame and stiff — lag through the day, tired, weak and worn out? Do you wonder why you are so run down? Many times this condition is due to weak kidneys. Winter's colds and chills are hard on the kidneys. The kidneys are apt to slow up in their work of filtering body-poisons from the blood. These poisons accumulate. Then comes backache, with theumatic pains, headaches, dizziness and kidney irregularities.

Don't risk serious kidney trouble! Use Doan's Pills - a stimulant diuretic to the kidneys. Doan's have helped thousands. They are recommended by many grateful people.

Ask your neighbor!

Your doctor advises internal cleanliness

LE will tell you that the first results of consti-pation—headache, sleepless nights, bilious-ness, backache, etc.—warn that the body is flooded with intestinal poisons. In time, these poisons may cause the breakdown of health and lead to serious disease. In constipation, say intestinal specialists, lies the primary cause of more than three-quarters of all illness including the gravest

Hence, doctors urge internal cleanlinessregular and thorough removal of food-waste from the body.

Laxatives Aggravate Constipation assitives and cathartics do not overcome "Keep Clean Inside" constipation, says a noted authority, but by

their continued use tend only to aggravate the condition and often lead to permanent injury. Why Physicians Favor Lubrication Medical science, through knowledge of the intesti-nal tract gained by X-ray observation, has found at last in lubrication a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage out of the body. Thus Nujol brings internal cleanliness.

Nujol is used in leaking hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. Like pure water it is harmless.

Get rid of constipation and avoid disease by adopting he habit of internal cleanliness. Take Nujol as regularly as you brush your teeth or wash your face. For sale by all druggists.

He was an eminent physician, a lead-ing and honored citizen, known for his honesty and executive ability. His study along medical lines, and his knowledge of the remedial qualities of herbs and plants led to the discovery of his wonderful herbal remedy, Doctor Pierce's Favorite Prescription, the woman's tonic which has had the greatest number of supporters for the past fifty years. It is just the herbal tonic required if a woman is borne down by pain and sufferings at regular or irregular intervals, by nervousness or dizzy spells, headsche or backache. NERVOUS HACKING Can not be cured by a glass of water, but will disappear under the healing and soothing effect of CHAMBERLAIN'S COUGH REMEDY

Every user is a friend

You want' the best in drugs, we cannot afford to sell anything else. Central Drug Store.

Yes-it can be done

The finest of cars can be sold at these prices

HE Studebaker name guarantees to you the utmost in finecar construction. For 72 years it has stood for quality, for honest workmanship, for square dealing.

It has always stood for style and class. Remember Studebaker carriages - supreme examples of fine coach building. Consider our facilities-mark what

we have at stake. \$90,000,000 in assets, \$50,000,000 in plants and equipment, \$10,600,000 in body plants

Note our multiplying sales — the sensation of

Motordom. It is fair to assume that we can and do build the finest cars and at Studebaker prices.

What is a fine car?

A fine car means the best materials any cost can buy. We use 35 formulas for steels, each known to be best for its purpose. We pay a premium of 15% on some to get the formulas exact.
All Studebaker models

are equipped with Tim-ken bearings. There are few cars in America, regardless of price, which equal ours on this point. In our Light Six, for instance, we put more Timken bearings than are used in any competitive car, within \$1,500 of its price. * *

A fine car means fine engineering We spend \$500,000 yearly on that department, employing 125 able men.

It means careful construction. We have 12,500 up-to-date machines. 1,120 of our operations are exact to 1/1000 of an inch. 360 are exact to one-half of 1/1000 of an inch.

It means infinite pains. For in stance, we machine all surfaces of our crankshafts as was done in Liberty Airplane Motors. We are the only makers of cars at our prices

It means careful inspection. With us it means 30,000 inspections in the manufacture of each Studebaker car.

Luxury and beauty

It means a car to be proud of. Our body finish includes 15 coats of paint and varnish.

Chase Mohair is used to upholster

our closed bodies - made from the

soft fleece of Angora goats.

We offer much extra equipment.

Go and See Why Studebaker Leads

Studebaker is now the world's largest builder of quality automobiles.

Last year, 145,167 fine-car buyers paid \$201,000,000 for them.

There are 13 models.

Prices begin at \$1,025.

Go see the reasons for this trend. See why ales have almost trebled in three years. Why these cars have become the sensation of Motordom.

You owe that to yourself before you buy a fine car.

> have two nickel-plated bumpers, one or two extra disc wheels with cord tires, a courtesy light, a motometer, steel trunk, etc.

> This factory, remember, is the ancient home of fine coach work.

Studebaker Big-Six, built in 1918, has so far run 475,000 miles. That means 80 years of ordinary service.

Where savings come

Then how do the Studebakers so far undersell any comparable cars? Because we build so many. The fixed costs are divided by enormous output-150,000 cars per year.

Because we build our own bodies, The saving to you on some types is up to \$300 per car.

Because we make our own forg ings, saving another profit there.

Because our plants are modern and efficient. We have spent \$38,000,000 on them in the past five

years. Because we keep our men, make them partners, pay them large bonuses to stay. Chang-

ing men is expensive. Because we conduct this business in every way on the best modern lines.

What buyers save

The Studebaker Light-Six Touring Car sells for \$1,045. Under ordinary manufacturing conditions it would need to cost you from \$1,200 to

On our Special-Six the difference might, be \$400 to \$700.

On our Big-Six type the difference may run into thousands; depending on the number produced. For this car compares only with the high-est-priced cars in Europe

and America. You will respect the Studebaker methods when you come to know them. You will admire the cars they

create. You will delight in the values. Remember that last year 145,167 fine-car buyers, after comparisons, chose the Studebaker models. So many people could not be wrong.

Learn why they did so before you buy a car at \$1,000 or over. You owe that to yourself.
